Description

Perforated walls or custom tool walls.

We manufacture tool walls from EURO perforation, 1.25 mm thick. The walls have curved edges, and larger dimensions typically have their own frame made of square profiles, to which the perforated sheet is attached.

Various hangers for hanging tools are also available, such as single and double hooks, hangers for screwdrivers, keys, etc.

To receive a price, please send an inquiry specifying your desired dimensions, and we will send you a quote.

Possibility of deviation from the specified external dimensions by up to 10 mm (if you need the exact specified dimensions, please notify us in advance).
